1 INTRODUCTION

The exercise is to create a Flutter Widget Tree of the attached UI picture.

- You can use these basic widgets: [Widget catalog | Flutter](https://docs.flutter.dev/ui/widgets) (docs.flutter.dev/ui/widgets)
- Also, you can use any custom widget what you can find here: [Dart packages \(pub.dev\)](https://pub.dev/packages)
If you do so, please attach the link of the widget you've used.

Note: You don't have to specify any further details more than you see in the example below (no need for margin, padding, alignment, dimensions, and sizes)

1.1 EXAMPLE

```
Scaffold
|---- AppBar
|  |---- Icon
|  |---- Text
|
|---- Column
|  |---- Container
|  |  |---- Row
|  |    |---- Image
|  |    |---- Column
|  |      |---- Text
|  |      |---- Text
|  |
|  |---- Text
|  |---- Row
|  |  |---- Column
|  |    |---- Image
|  |    |---- Text
|  |  |---- Column
|  |    |---- Image
|  |    |---- Text
|  |  |---- Column
|  |    |---- Image
|  |    |---- Text
|  |  |---- Column
|  |    |---- Image
|  |    |---- Text
|  |  |---- Column
|  |    |---- Image
|  |    |---- Text
|  |---- TextButton
|
|---- FloatingActionButton
|  |---- Column
|  |  |---- Icon
|  |  |---- Text
```
